U.S. Patent and Trademark Office PTOL-303 (Rev. 11-03) Continuation of 2. NOTE: Applicant's amendment to claim 14 would overcome the objection to claim 14, however the rejection would still stand..

Continuation of 5. does NOT place the application in condition for allowance because: Applicant has argued that the claim claims a single low retardance film can only be in one of the two claimed paths, where as Schmidt clearly has the same film in both paths. However the claim language does not preclude the same low retardance film being in both paths, rather it requires that the film be in one path, it does not speak as to whether or not the film can be in the other path at the same time.
